### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: In light of the decision by the Board of Appeals and Interferences, and that the prior art does not teach identifying brain loci that manifested increased activation in response to a stimulus and whose deactivation selectively eliminates the behavior response to the external stimulus without eliminating behavioral responses to external stimuli that induce other elements of sensation within the same submodality, the instant claim is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
